

IDEA Maintenance of Effort Required Amounts for FY 2012

The table below is provided to show the established base amount of special education expenditures by each Local Education Agency (LEA) from local and State funds during fiscal year (FY) 2011. This information was reported to the Department of Education by the LEA on the FY 2011 IDEA Maintenance of Effort (MOE) Compliance form. The compliance form is based on unaudited data, so if the amounts in the table are incorrect, it is the LEA's responsibility to notify the Department of any needed corrections.

To meet the IDEA MOE requirement each LEA needs to ensure it budgets and spends at least the same amount of either local funds, or combined State and local funds for special education purposes during FY 2012 as it did in FY 2011. The MOE requirement can be met either in an aggregate amount, or on a per capita basis.

MOE Tests

The LEA needs to pass at least one of these four MOE tests to demonstrate compliance:

- 1) At least the same amount of local funds is expended as the LEA expended from local funds on special education activities the previous fiscal year. (Column 1)
- 2) At least the same total amount of local and state funds are expended as the LEA expended from these two sources on special education activities the previous fiscal year. (Column 2)
- 3) At least the same student per capita amount from local and state funds was expended as the LEA expended from these two sources on special education activities the previous fiscal year.
- 4) At least the same student per capita amount from local funds was expended as the LEA expended from local funds on special education activities the previous fiscal year.

Possible Exceptions

An LEA may reduce the level of expenditures from local, or state and local funds, below the level of those expenditures for the preceding fiscal year if the LEA can demonstrate that the reduction is attributable to the following:

- 1) The voluntary departure, by retirement or otherwise, or departure for just cause, of special education or related services personnel funded with local or state funds.
- 2) A decrease in the enrollment of children with disabilities.
- 3) A student with a disability that requires an exceptionally costly program either leaves the district, ages out, graduates, or no longer needs the special education program.

To use the allowable exceptions, the LEA must provide a detailed description, as well as a dollar amount from State or local funds associated with each exception. ***Please consult the Department of Education before relying on one of these exceptions.***

FY 2011 LEA Level Special Education Expenditures Table

The table is based on unaudited data, submitted by the LEA. Please notify the Department of any needed corrections.

	Column 1	Column 2
